Comparing USA and Canadian Perazzi Prices: Dispelling the Myth

Every day, we face questions from Canadian clients who ask us why Perazzi prices are much higher in Canada, than from USA dealers. While Perazzi retail prices may appear to be lower in the USA than in Canada, this is NOT the case when you add in all the unavoidable and required costs to get that gun into Canada. Buying a gun from PerazziCanada.com is less than buying that same gun from a USA dealer.

When you buy a Perazzi from a US dealer there are extra costs of getting that gun into Canada: shipping, GST at customs, duty at customs, USA gun centre transfer fee, and the cost of having to drive to the USA to have the gun escorted to a Canadian port of entry. And remember, you have a 6-8 week wait while the USA gun centre waits for an export permit and while you get an import permit. **You will pay more for ordering a gun from the USA, you will do more work, and you will be required to drive to the USA to get your gun. We will deliver to your door for less money!**

We took 3 real examples, from 3 real USA gun dealers, to help our customers make better decisions. We compare their costs of ordering a new Perazzi from the USA versus Perazzi Canada costs. In all 3 real examples, you **SAVE** money ordering from PerazziCanada.com!

Example #1: MX2000RS Trap Combo (32/34)
